

Year 3 News

19th June 2026

What we've been learning recently

English – This week in English we have been rounding off our topic 'How Maui Tamed the Sun' by writing our own version of the story, using all our skills we have practiced over the past few weeks. The children have all been engrossed in their writing and have all done so well! Please ask them about their stories, they would love to tell you all about it!

Maths – In Maths, we have begun our new unit on time. The children started by making their own clocks out of paper plates, to help them understand how a clock works and functions. Then we moved on to being able to tell them time to 5 minutes and to 1 minute. Time is a great topic you can work on at home together! Ask them to tell you the time to get some extra practice in.

Wider Curriculum – In Science, we have been looking at animals and their skeletons. We have learnt that some animals have skeletons inside their body, some have them outside their body and some have none at all! This week we have looked at the larger muscles that make up the human body and how they work. We also had lot of fun in Outdoor Learning this week cooking sweet potatoes on the fire, making our own fires and creating art work with nature.

Over the next fortnight we will be...

- In English, we will be starting out new topic on a Willy Wonka factory setting description.
- In Maths, we will continue to focus on Time.
- In Wider Curriculum, we will be beginning to look at Antarctica as part our Geography learning.
- In DT, we will be designing and cooking our own special pasties.
- In RE, we will be continuing looking at Cornish Festivals.
